

Paw Time

Let's work together.

A cozy cat game that shows who fits a job, before and after every shift.

Where it started

This summer, we applied. Many never wrote back.

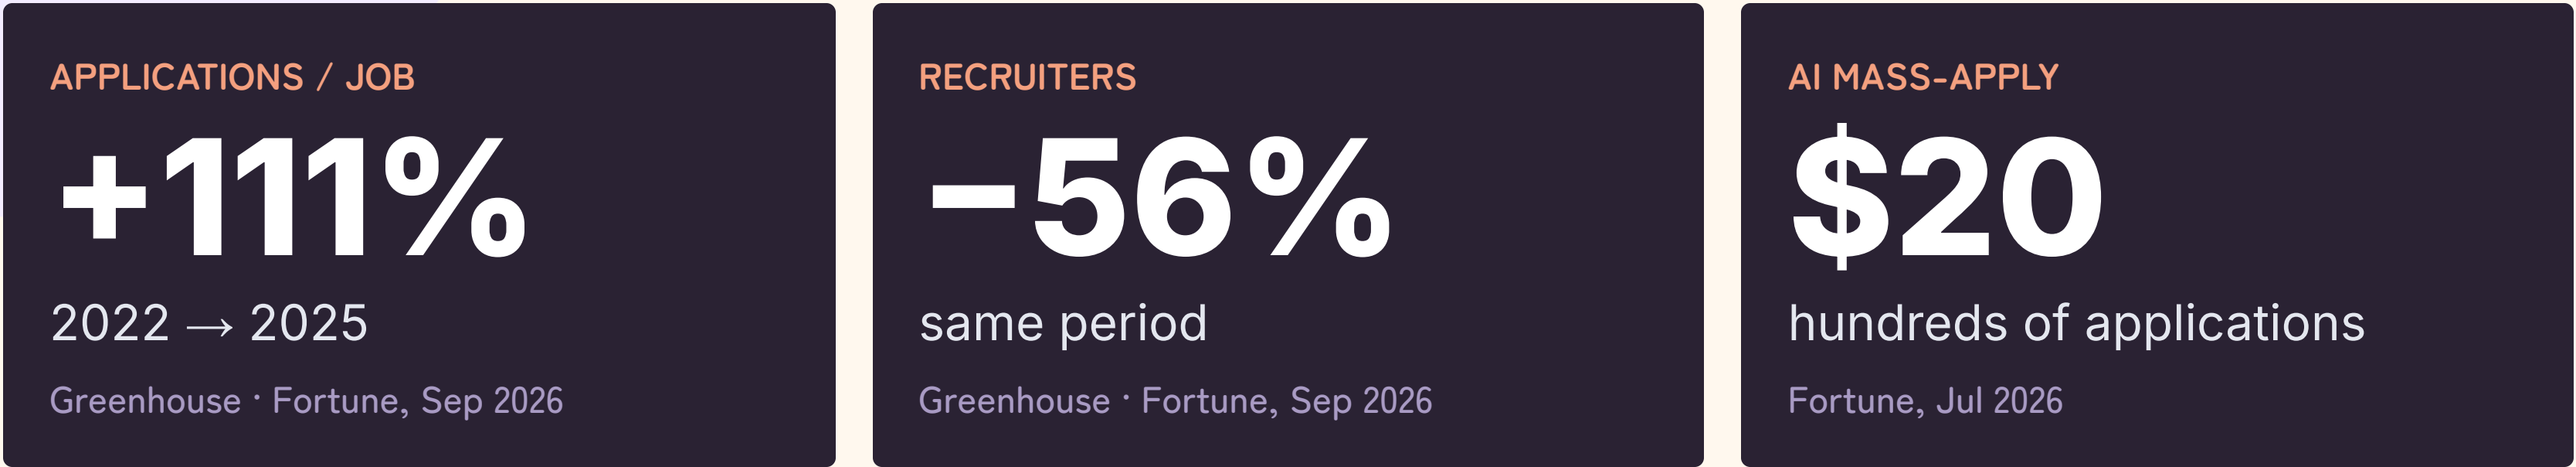

- **Applied**
Café crew
- No reply
- **Applied**
Warehouse
- No reply
- **Applied**
Event staff
- No reply

...and then, silence.

The problem

Recruiters are drowning in applications.

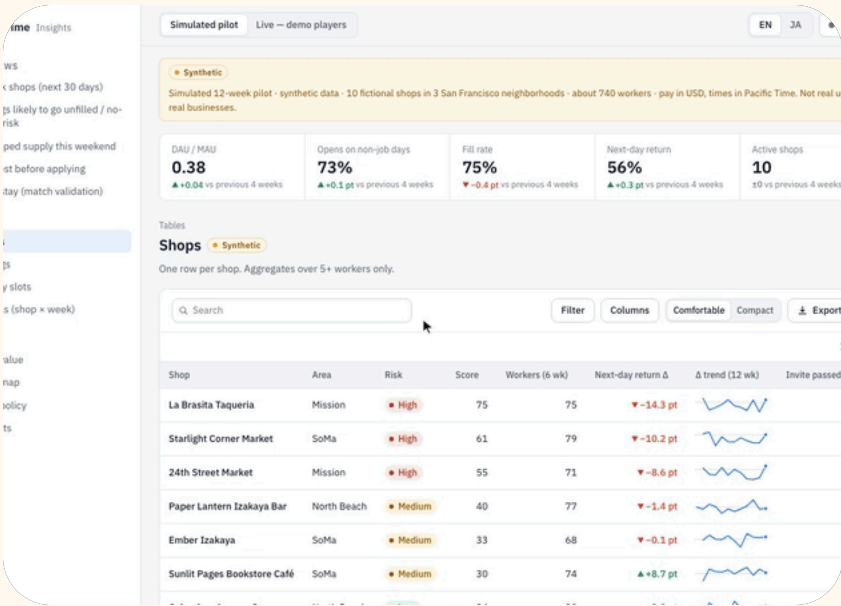

→ Who fits?

What Recruit's CEO says

“Something's wrong.”

“1,000 applications, and all 1,000 are not qualified? Something's wrong.”

Hisayuki “Deko” Idekoba · CEO, Recruit Holdings & Indeed · Fortune, Sep 21, 2026

Outcomes show who fits.

Inspiration / Key Insight

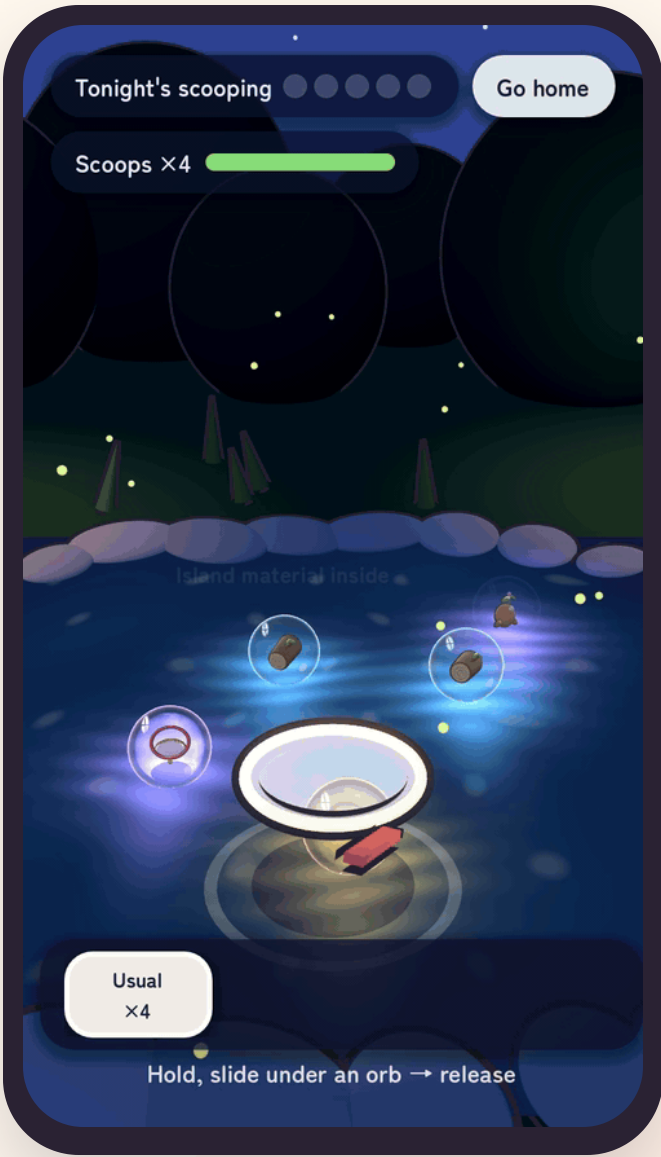

Job apps are only opened when people look for work.

WHAT WE OBSERVED · A TYPICAL WEEK [ILLUSTRATIVE]

Job app	M	T	W	T	F	S	S
Paw Time	M	T	W	T	F	S	S

REVEALED So outcome data is never collected.

UNLOCKS A game opened daily can collect it.

Solution Overview

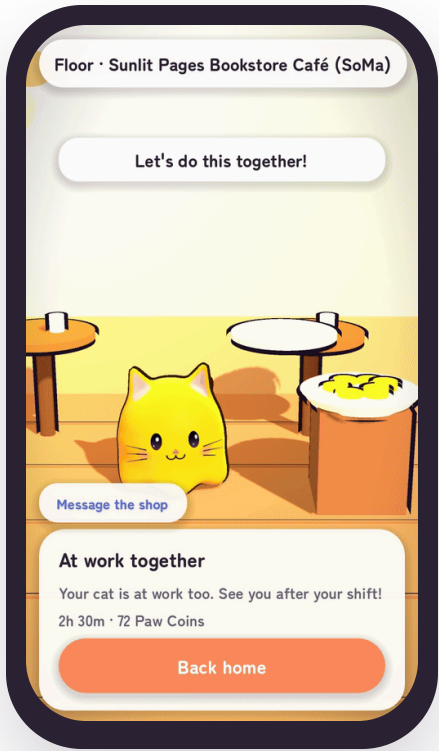

A cat that brings shifts and knows when to stop.

WHO IT IS FOR **Spot workers · their shops · Recruit**

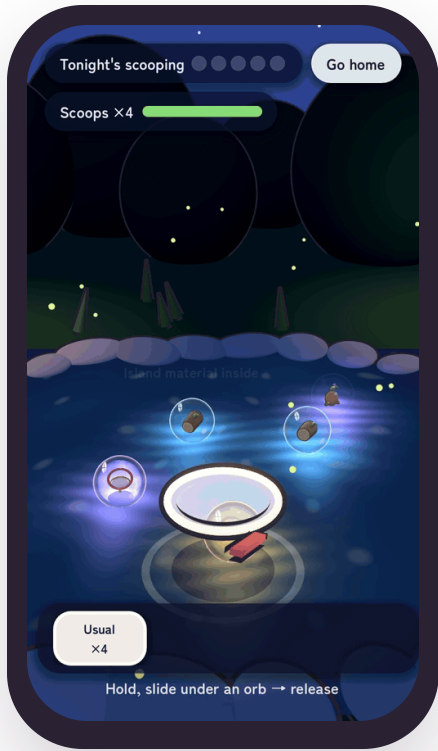

1 PICK

Shifts that fit

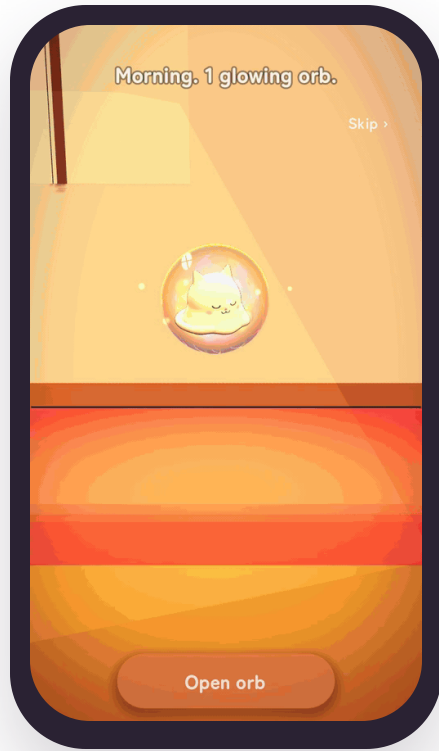

2 WORK

Gets tired with you

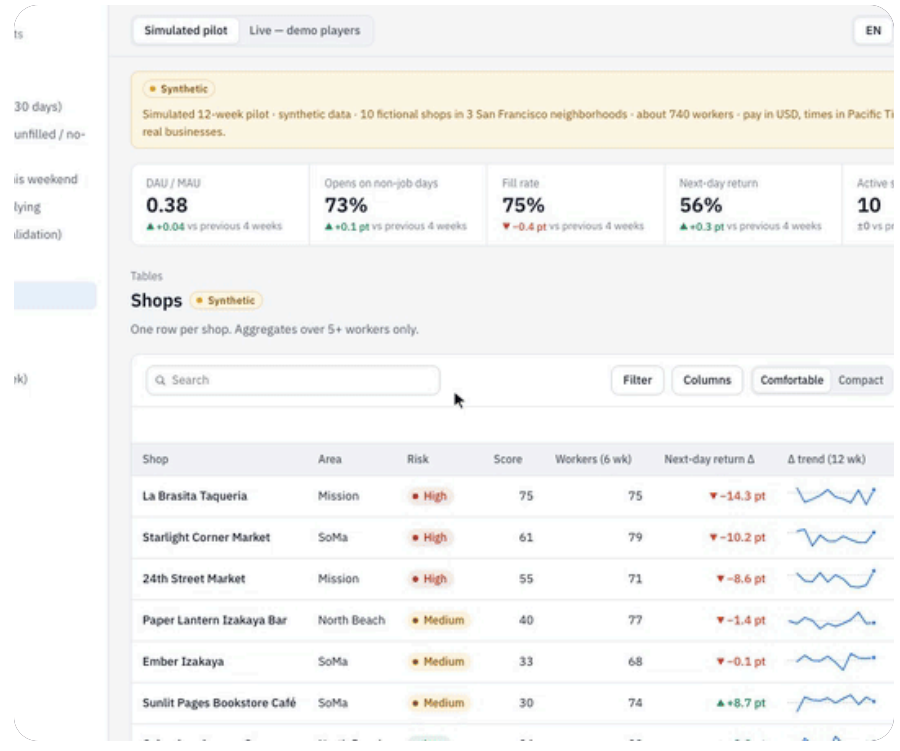

3 NIGHT

Scoop orbs

4 MORNING

Hatch rewards

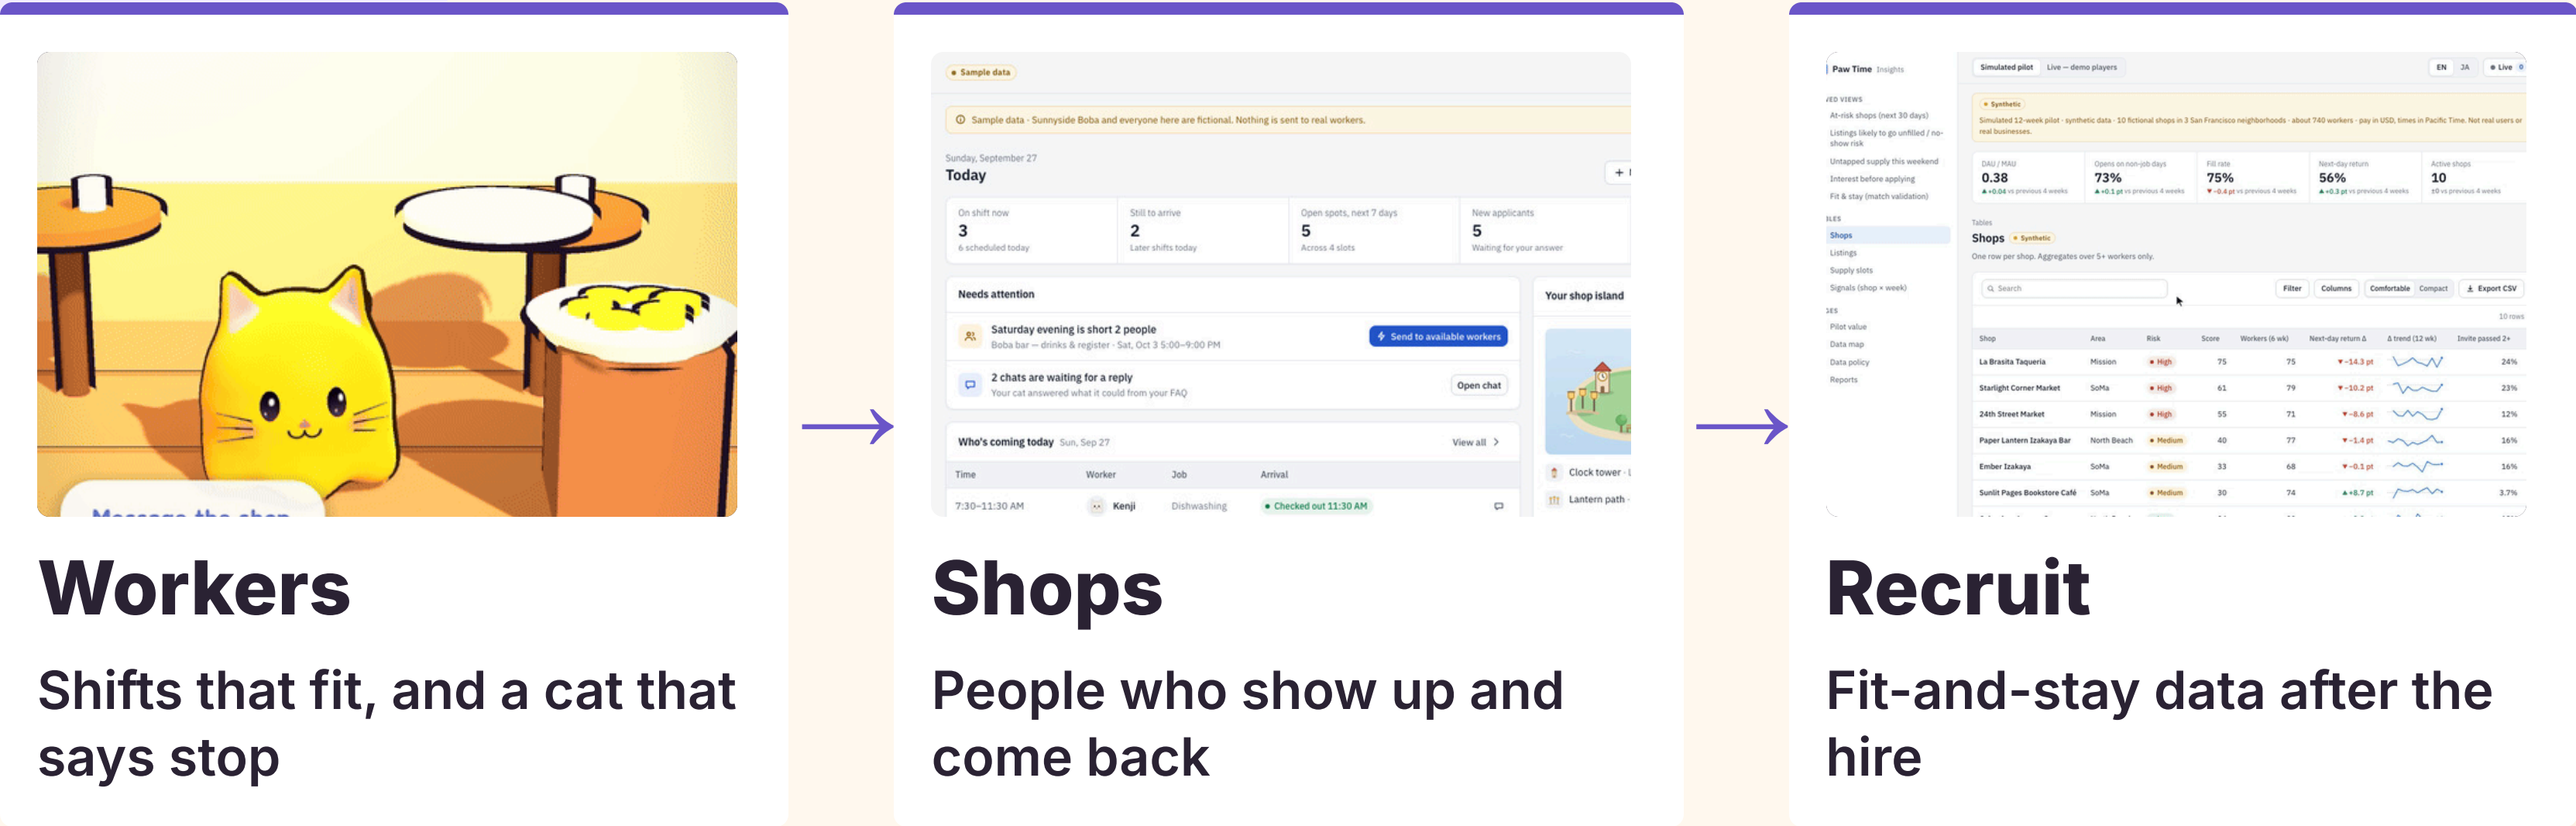

5 RECRUIT VIEW

Who fits, as data

Solution Overview · What Changes

Workers, shops and Recruit all come out ahead.

Play daily → Signals → Better matches → People stay → Better shifts ↻

Quantified Impact

1% better matching in spot work $\approx$ ¥1.35B a year.

01 PRIMARY NUMBER

¥1.35B

a year, if matching improves 1% ($\approx$ \$9M)

¥134.7B $\times$ 1% = ¥1.35B

[ILLUSTRATIVE]

¥14.6B

same 1%, all of Recruit HR Tech

[ILLUSTRATIVE]

$\approx$ 9%

spot work vs. HR Tech revenue

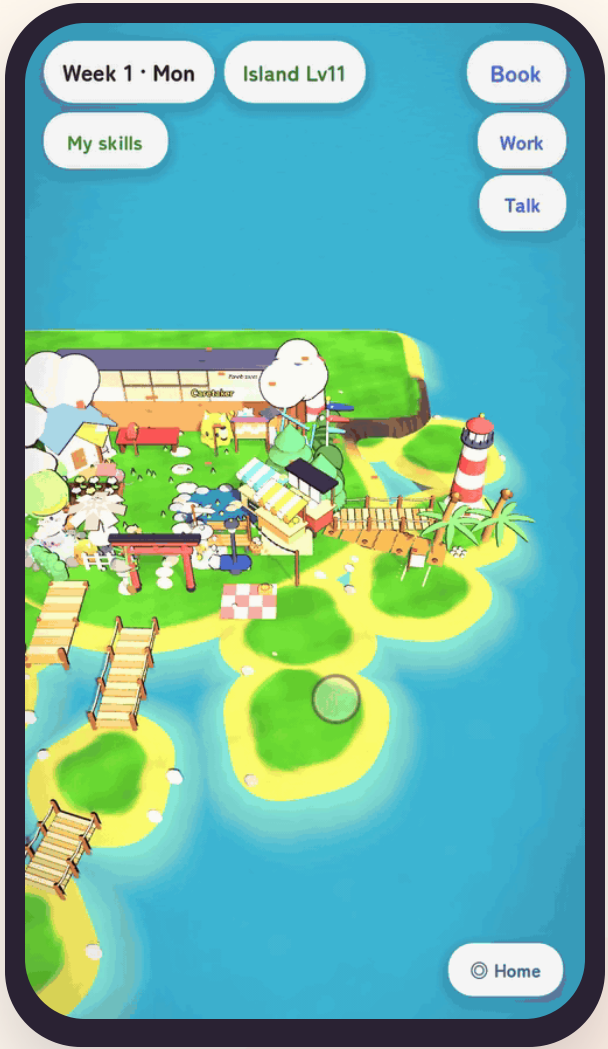

[CALCULATED]

Spot-work market ¥134.7B: Yano Research Institute (FY2025 est.). HR Tech revenue ¥1,458.4B: Recruit Holdings FY2025. Assumes revenue moves 1:1 with match quality; the pilot tests the 1%.

What Makes This Different?

AI can write applications. It can't show up every day.

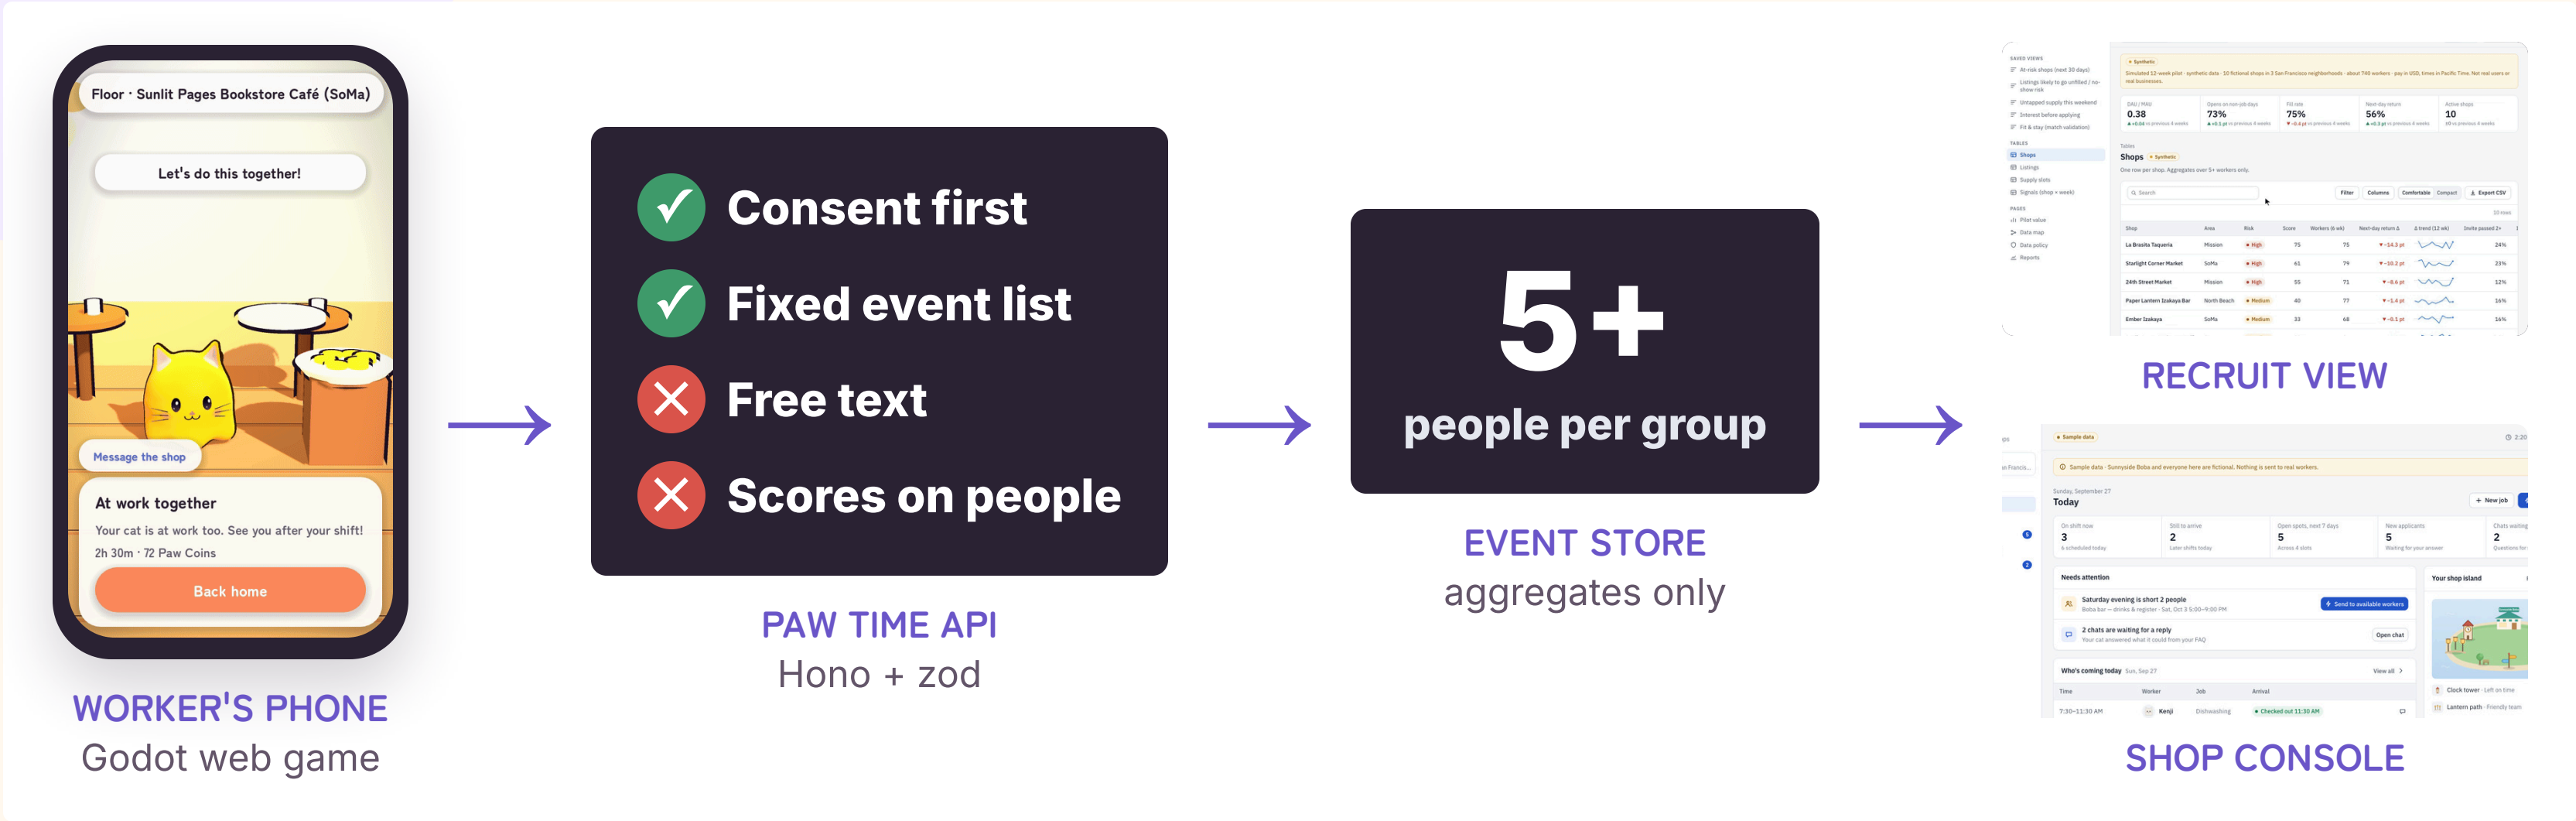

HOW IT IS DIFFERENT				
WHAT EACH SEES	BEFORE	APPLY	SHIFT	AFTER
Spot apps				
Job boards				
Paw Time				

HARD TO COPY **A daily habit comes from a character people love.**

Technical Design

Only fixed, consented events leave the phone.

Future Roadmap

Let's fix the job market, together.

01 NEAR TERM · 0-3 months

Pilot: 3-5 shops, 4 weeks

02 MEDIUM TERM · 3-12 months

One city, Recruit listings, +1% target

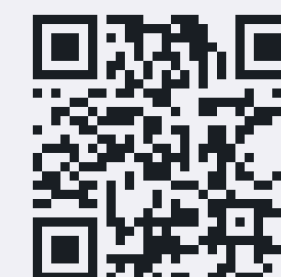

03 LONG TERM · 1-3 years

Inside Indeed matching, Japan + US

FASTEST ACCELERATOR

Five pilot shops + Recruit listings
